

Notice of charge transmitted February 10, 2025

Agency reference SYN-EEOC-RIC-2025-0203 identified Leora Benton as charging party and Blue Cedar Compliance, Inc. as respondent. The notice stated that a charge alleging sex discrimination and retaliation had been filed on February 3. A copy of the charge accompanied the electronic transmission to Blue Cedar's registered human-resources inbox at 9:14 a.m.

The transmittal requested preservation of assignment, scoring, employment, and communication records. It invited a position statement, warned against retaliation for filing or participating, and directed the respondent to use the agency reference on later correspondence.

The delivery receipt shows successful transfer at 9:15 a.m. and assigns response date April 18.

Receipt, acknowledgment, and internal routing

Mira Solis acknowledged employer receipt at 1:42 p.m. on February 10. The administrative file records that she downloaded the notice and charge, assigned internal reference ER-25-014/EEOC, and confirmed that Blue Cedar would preserve responsive material.

The attached routing history shows Solis forwarding the packet to outside counsel and Draven Pike. It records successful delivery to Pike on February 10 and an “opened” event at 8:07 a.m. on February 11. A separate calendar attachment shows Pike accepting a February 12 meeting titled “EEOC / staffing response.”

The routing metadata records transfer, delivery, and an open event. It contains no content-level reading history and no statement by Pike describing what he reviewed at that time.

Closure and notice of right to sue

On May 22, 2025, the administrative office closed its processing of charge SYN-EEOC-RIC-2025-0203 and issued Benton a notice of right to sue. The notice stated that the agency had made no merits determination and that Benton could bring a federal action within the applicable ninety-day period.

The file records electronic delivery to Benton's designated mailbox on May 22 and a courtesy copy to Blue Cedar on May 23. The delivery ledger records no rejection or bounce message for either transmission.

The closure did not adopt either party's account of Pike's knowledge, the RIF criteria, or causation, and it made no finding on the merits of the charge.
