

February 10 incoming notice log

At 9:15 a.m., Blue Cedar’s registered human-resources inbox recorded successful receipt of notice for charge SYN-EEOC-RIC-2025-0203. The log identifies Leora Benton as charging party and tags the matter “sex / retaliation / records hold.”

Mira Solis downloaded the notice and charge at 9:32, linked them to ER-25-014/EEOC, and expanded the existing preservation hold to cover assignment data, RIF planning, scoring, and staffing communications. At 1:42 p.m. she acknowledged receipt to the agency.

The February 10 entry contains no staffing worksheet or scoring attachment.

Routing to Draven Pike and acknowledgment

Solis forwarded the packet at 3:06 p.m. on February 10 to outside counsel and operations vice president Draven Pike. Her subject line read “Benton EEOC charge — preserve and response input.” The message asked Pike to identify any planned staffing action affecting Benton.

The system shows delivery to Pike at 3:07 p.m. and an open event at 8:07 a.m. on February 11. At 8:19, Pike replied, “Received. I will preserve operations files and discuss staffing inputs tomorrow.” He did not state whether he agreed with the allegations.

The log records delivery, an open event, and Pike's reply. It contains no page-level reading history.

February 12 calendar and meeting note

Pike accepted Solis's 10:00 a.m. calendar invitation titled "EEOC / staffing response." Invitees were Pike, Solis, and outside counsel. The agenda listed preservation, assignment-score sources, pending finance planning, and response ownership.

Solis's nonprivileged action note says Pike would supply operations data and would separate any finance-driven staffing process from the employee-relations file. It records Pike asking when Benton made the internal complaint and whether the charge named other managers.

The retained nonprivileged action field contains the quoted agenda items and no legal-advice text. No additional meeting narrative appears in this production.
