

Express Expedited Oral-Argument Order for April 21, 2026

United States Court of Appeals for the Fourth Circuit

In re Cinder Lake Health Network, Inc., Petitioner

Related district action: *Rhea Calder v. Cinder Lake Health Network, Inc.*

Docket: SYN-CA4-26-WR-4401

Document code: A15

Filed: 2026-04-14

Express argument order

The petition is set for oral argument before Judges Alder, Vale, and Fen on April 21, 2026, with Judge Alder presiding.

The order departs from ordinary submission because the panel wants focused assistance on a compressed and sealed-record dispute. It identifies this petition and sets argument for April 21. That date arises from this express order, not from petition acceptance or briefing completion, and it applies only to the original proceeding identified in the caption.

Issues for argument

Counsel should address actual disclosure under Rule 502(a), the Cheney threshold, seven-day production, and the line between protected communications and discoverable facts.

The listed subjects are extraordinary-relief adequacy, Rule 502's initial disclosure requirement, the production deadline, and the scope of permissible discovery on remand. Counsel should not argue the merits of Calder's retaliation claim or reveal sealed content through a public citation. Protected material may be discussed only as permitted by Local Rule 25(c), the district protective and sealing orders, and any appellate sealing ruling entered before argument.

Time and record

Each side receives twenty minutes of argument. Cinder Lake may reserve two minutes of its own allotment for rebuttal; questions must use the public record or sealed material lawfully available under the governing rules and orders.

The hearing totals forty minutes, allocated twenty minutes per side. Any two-minute rebuttal reserved by Cinder Lake is part of, rather than additional to, its twenty-minute allotment. Counsel must ground record answers in public pages or sealed counterparts available under Local Rule 25(c), the district orders, and any appellate sealing ruling entered before the hearing. The time allocation does not signal the panel's view or change the burden on Cinder Lake.

Continuing conditions

The interim stay remains effective. This order changes no filing deadline, grants no merits relief, and authorizes argument only on the stated date.

The interim stay remains operative so argument can occur without compelled disclosure of the disputed materials. This order neither reopens briefing nor decides any part of the petition. Argument will occur on April 21 under the schedule stated here, and the parties must continue to observe the existing restrictions on protected material.
