Related district action: *Rhea Calder v. Cinder Lake Health Network, Inc.*

Docket: SYN-CA4-26-WR-4401

Document code: A16

Filed: 2026-04-21

Argument held

On April 21, 2026, Judges Alder, Vale, and Fen heard Cinder Lake and Calder on the four specified merits issues, with Judge Alder presiding. The interim stay remained in effect.

The clerk’s minute identifies the panel, counsel, date, and subject areas and confirms that the hearing occurred under the April 14 order. It records no witness evidence and adds no fact to the district record. Questions about sealed matters used the corresponding public citations so this public minute does not reveal protected content or sealed page numbers.

Submission

Counsel answered questions concerning the letter, Rule 502(a), Cheney, Fluor's nonprecedential status, and document-specific remand. The matter was submitted without disposition from the bench.

Submission ends the authorized oral argument but does not itself grant, deny, or vacate anything. The interim stay remains until the panel issues its final disposition. No additional argument date or postargument brief is authorized. The petition is submitted for decision, and the parties remain bound by the existing confidentiality and preservation orders while that decision is pending.
