Never-Filed Post-Denial Mandate

Court: United States Court of Appeals for the Fourth Circuit **Case:** Open Grid Archive v. United States Department of Energy **Isolated docket:** SYN-CA4-26-CV-4106-CF-NEVER-OCCURRED **Filed:** June 29, 2026

The Court’s May 29, 2026 counterfactual judgment is now placed into effect within this isolated branch. Open Grid filed a timely petition for panel and en banc rehearing on June 12. When denying that petition on June 22, the Court expressly shortened the remaining government-party rehearing period to that date and directed mandate for June 29. Seven days have elapsed, and no stay or later Rule 41 timing change was entered in this path.

Under Federal Rule of Appellate Procedure 41, the mandate consists of a certified copy of the judgment, a copy of the Court’s opinion, and any direction about costs. The judgment affirms the corrected district rulings on Exemptions 7(E) and 7(F), segregability, and limited sealing. It orders no remand and adds no fact to the corrected premise.

The mandate is effective upon issuance today. Its force is confined to the never-filed exercise docket and cannot establish history on the actual appeal. The controlling calculation is May 29 judgment, June 12 timely petition, June 22 denial and express Rule 40 shortening, followed by the directed June 29 mandate.

Certification and Transmission

Teren Wye, acting as the fictional circuit clerk, certifies the counterfactual opinion, judgment, rehearing-denial order, and this mandate for transmission to the fictional district clerk. The transmitted materials retain their public or controlled status; certification does not grant access to a sealed counterpart or expose its location.

The corrected sealing arrangement continues for thirty days after this mandate, through July 29, 2026, unless a supported order ends it earlier or renews a particular restriction. Public counterparts remain available. Any continued closure after that finite endpoint requires the findings described in the counterfactual opinion.

Service is recorded on Tamsin Roe and Leo Marr for Open Grid and Corin Pell for DOE through the isolated exercise system. The appellate proceeding in this ordinary post-denial path terminates when the mandate issues. No other rehearing, stay, revised opinion, or later branch event is incorporated into this record.

Issued June 29, 2026 at the direction of Judges Vale, Quill, and Reed, fictional composite judges. This mandate concerns synthetic legal analysis only and supplies no real cyber instruction, system fact, person, or protective assignment.
