

**SYNTHETIC TRAINING RECORD — FICTIONAL PARTIES, PEOPLE,
OFFICES, IDENTIFIERS, AND EVENTS — NOT A REAL FILING OR
PRESENTENCE REPORT**

Criminal Judgment

Entered: February 25, 2026 **Synthetic docket:** SYN-MDNC-25-CR-0328 **Public docket entry:** DE41

Mateo Serrano pleaded guilty to Count One, conspiracy to commit wire fraud, in violation of 18 U.S.C. §§ 1349 and 1343. The fictional offense began August 4 and was completed November 2, 2025. Judge Elara Venn accepted the plea and adjudged Serrano guilty.

At sentencing on February 24, 2026, the court imposed 36 months of imprisonment, three years of supervised release, restitution of \$186,400 to Meridian Community Supply Cooperative, and a mandatory special assessment of \$100. No fine was imposed. The remaining terms appear on the following pages.

The judgment follows the oral pronouncement. It contains no confidential statement-of-reasons form, presentence report, genuine personal identifier, custody designation, payment account, or reporting address. All parties, offices, facts, and identifiers are fictional training constructs created solely for this record. If an administrative phrase differs from the oral sentence, the lawful oral pronouncement governs subject to ordinary correction procedures.

Imprisonment

Serrano is committed to the custody of the appropriate federal authority for 36 months on Count One. The responsible authority will calculate any credit for prior custody under governing law. The court makes no binding designation of institution and includes no genuine surrender or transport information in this synthetic judgment.

The sentence reflects an advisory Guidelines calculation of total offense level 20 and criminal history category I, with a range of 33 to 41 months. The court overruled the defense objection to the three-level adjustment under § 3B1.1(b) and denied the request for a 24-month variance. Those reasons are stated in the sentencing transcript, public minute summary, and separate role order.

Administrative arrangements must be communicated through the fictional court channel. Nothing here directs a real person to report anywhere, grants access to a detention system, or represents an enforceable custody command. The court recommends only that continuity of appropriate treatment be considered through ordinary lawful processes, without publishing a provider, diagnosis, or location.

Supervised Release

Upon release from imprisonment, Serrano shall serve three years of supervised release. He must comply with mandatory conditions and with standard conditions reasonably administered by the supervising office. Conditions include reporting as lawfully directed, remaining within approved travel boundaries, answering truthfully, maintaining lawful employment or approved constructive activity, and refraining from new violations.

Serrano shall participate in treatment approved by the supervising officer when directed, subject to lawful confidentiality protections. He shall provide truthful financial information needed to administer restitution and shall not conceal assets from lawful collection. No public filing should disclose a provider, clinical record, employer, family member, account, or payment route.

The conditions are intended to support treatment continuity, stable work, deterrence, and repayment. They do not authorize access to unrelated private records or impose a restriction beyond the synthetic judgment's lawful purposes. The supervising office may seek clarification or modification through ordinary court procedures. This page supplies a training summary of conditions and is not a genuine supervision order for any person.

Criminal Monetary Penalties

Restitution is ordered in the amount of \$186,400 to Meridian Community Supply Cooperative. The obligation corresponds to the stipulated aggregate loss from the fictional offense. Payment timing and administration will follow lawful procedures and the defendant's ability, with any required schedule maintained without publishing authentic financial information.

The special assessment is \$100 on Count One. It is due as provided by law. No fine is imposed because the court determined that available resources should be applied toward restitution. Interest and enforcement questions, if any, remain governed by applicable law rather than invented terms in this exercise.

No account number, routing instruction, payee address, or electronic payment credential appears in the judgment. The clerk and supervising office must use only the closed fictional channel created for this corpus. Restitution does not replace imprisonment or supervised release, and payment does not alter the conviction. The financial provisions form part of the sentence pronounced February 24 and entered February 25.

Entry, Service, and Notice

Judgment is entered on February 25, 2026. Tessa Wren shall serve copies through the synthetic court channel on Celia Arden for Serrano, Bram Ives for the fictional United States, and Niko Faye for the exercise probation office. The public docket entry is DE41.

At the hearing, the court advised Serrano under Rule 32(j) that, subject to the plea agreement, any notice of appeal ordinarily must be filed with the district clerk within 14 days after entry of judgment. A separate written notice was entered February 24. This judgment does not determine the permissible scope or eventual disposition of any appeal.

Judge Elara Venn signs the judgment on February 25, 2026. Tessa Wren certifies entry and service but does not authenticate any real court record. The document contains fictional names and identifiers only, omits every sealed attachment, and should not be used as a real custody, supervision, or financial directive. No postjudgment event is incorporated into the judgment as entered.
