United States Court of Appeals for the Fourth Circuit

Docketing Notice

Asterglen Freight Software, Inc., Appellant, v. Copper Kestrel Logistics, LLC and Meridian Silt Holdings, LLC, Appellees.

No. SYN-CA4-26-CV-4102 Appellate ECF No. 1 — Filed March 5, 2026

The appeal transmitted from the United States District Court for the Northern District of West Virginia, Civil Action No. SYN-NDWV-25-CV-0618, is docketed under the district-court title. Asterglen Freight Software, Inc. is identified as appellant. Copper Kestrel Logistics, LLC and Meridian Silt Holdings, LLC are identified as appellees. The district clerk reports that the Notice of Appeal was filed on March 3, 2026.

The notice designates the January 12, 2026 memorandum opinion and order dismissing Count I with prejudice, the February 4 order granting Asterglen's motion under Federal Rule of Civil Procedure 54(b), and the separate partial judgment entered February 4. The district docket further reports that Count II against Meridian and Copper's amended counterclaim remain pending. Docketing this appeal is an administrative act and does not decide whether the designated papers constitute a final decision within 28 U.S.C. § 1291.

Counsel must file the required appearance forms, corporate disclosure statements, and appellant's docketing statement within the periods prescribed by the Federal Rules of Appellate Procedure and this Court's local rules. The docketing statement shall identify the jurisdictional basis accurately, including the status of every claim remaining below.

Initial filing and record directions

Appellant shall comply with Federal Rule of Appellate Procedure 10(b) by ordering any necessary transcript or certifying that no transcript will be ordered. The March 3 notice makes March 17, 2026 the ordinary fourteen-day date for that step. If the relevant motions were decided entirely on written submissions, appellant should state that fact without representing that an unrecorded hearing occurred.

The district clerk shall retain the original papers and transmit the record or certified electronic record according to the governing rules. The record should identify the pleadings, exhibits, summary-judgment submissions, January 12 ruling, Rule 54(b) papers, February 4 order and partial judgment, Notice of Appeal, and certified docket. An appellate submission may not add material absent from the district-court record.

Counsel are directed to address appellate jurisdiction in the principal briefs. In particular, the parties shall discuss whether the February 4 order contains the express determination required by Rule 54(b), whether the separate judgment supplies anything absent from that order, and what relief follows if the partial disposition is not final. A timely notice of appeal does not by itself establish finality.

Briefing dates will be established after the district record is complete. Unless the Court later orders otherwise, the parties should consult Federal Rule of Appellate Procedure 31 and the applicable local rules. All filings must use No. SYN-CA4-26-CV-4102, be served on every represented party, and disclose any related appellate matter. Issued at the direction of the Clerk on March 5, 2026.
