Appellate Docketing Notice

United States Court of Appeals for the Fourth Circuit

Blue Ember Biologics, LLC v. Granite Heron Logistics, Inc.

Appellate No. SYN-CA4-26-CV-4105

Issued January 14, 2026

The clerk opens this civil appeal on Blue Ember Biologics, LLC’s January 12, 2026 notice from the final amended judgment entered December 15, 2025 in Western District of North Carolina Case No. SYN-WDNC-24-CV-0520. The district clerk certified and transmitted the notice, docket sheet, and then-assembled record on January 13. Blue Ember is designated appellant; Granite Heron Logistics, Inc. is designated appellee. Those designations concern appellate administration and do not decide any disputed merits question.

The transmitted materials identify an October 15, 2025 original judgment following a jury verdict and a November 10 combined motion under Rules 50(b) and 59. The December 15 order disposed of that motion, entered an amended judgment, and conditionally addressed a damages new trial. Because the postjudgment motion was timely, the notice filed twenty-eight days after its disposition appears timely under Federal Rule of Appellate Procedure 4(a)(1)(A) and 4(a)(4)(A). This ministerial notice reserves final jurisdictional determination to the assigned panel under 28 U.S.C. § 1291.

Initial obligations and record administration

Counsel must enter appearances, submit required disclosure statements, maintain current electronic-service information, and use appellate number SYN-CA4-26-CV-4105 on every filing. The parties shall identify any transcript still needed for review or certify that the filed transcripts are sufficient. A party seeking correction or supplementation must describe the particular omission, its district-court provenance, and the relief requested. Opening this docket does not itself enlarge the record or approve a proposed appendix.

The appeal is not an occasion to relitigate matters outside the December 15 disposition. The district materials presently describe a posttrial dispute about whether mitigation could support renewed judgment as a matter of law, an alternative conditional new-trial ruling, and the permitted scope of any retrial. The clerk states those subjects only to aid classification. No conclusion is expressed about preservation, the weight of evidence, separability, or remedy.

Briefing dates will follow after record completion. Until a later order provides otherwise, counsel remain governed by the Federal Rules of Appellate Procedure and this court's local rules. Filing a notice of appeal does not stay the amended judgment, and this notice grants no interim relief. Electronic notice is sent to Maya Holt and Jonas Bell for Blue Ember and to Eli Mercer and Tara Webb for Granite Heron. Issued by the Fictional Fourth Circuit exercise clerk.
