

**SYNTHETIC TRAINING RECORD — FICTIONAL PARTIES, PEOPLE,
PLACES, IDENTIFIERS, AND EVENTS — NOT A REAL FILING**

Original Judgment

Entered October 15, 2025

United States District Court for the Western District of North Carolina Blue Ember Biologics, LLC v. Granite Heron Logistics, Inc. Civil Action No. SYN-WDNC-24-CV-0520

In accordance with the unanimous special verdict returned October 14, judgment is entered for Blue Ember Biologics, LLC and against Granite Heron Logistics, Inc. in the amount of 3.9 million dollars. The amount reflects 4.2 million dollars of gross compensatory damages less the jury's 300,000-dollar net mitigation deduction.

The judgment resolves the contract claim tried to the jury. It does not adopt Granite Heron's proposed 1.5-million-dollar mitigation model or reduce the award to 2.7 million dollars. It does not include punitive damages, attorney fees, or an amount for a claim not submitted.

Postjudgment interest accrues as provided by governing federal law from the date of entry. Taxable costs may be sought through the ordinary procedure and are not fixed in this document. The clerk shall record entry and provide notice to counsel of record.

The verdict supplies the complete basis for this judgment, and no additional factual finding is added.

Basis and relationship to verdict

The judgment follows the verdict's separated structure. The jury found contract liability and causation, itemized 1.35 million dollars of original-lot cost, 850,000 dollars of replacement expense, and two million dollars of bounded delay, and then applied a 300,000-dollar net reduction for mitigation. The Court performs no additional factfinding in entering the 3.9-million-dollar total.

The denied Rule 50(a) motions challenged causation only. Their denial left the jury free to answer all submitted questions. Nothing in this judgment enlarges or narrows the grounds those motions stated. Granite Heron may file a timely postverdict motion under the applicable rules, subject to preservation, burden, and timing requirements.

The judgment is final as entered unless altered through authorized posttrial procedure or appeal. A later amended judgment, if any, must identify the change and cannot silently overwrite this original entry. The docket will retain both instruments so the chronology and operative amount at each stage remain visible.

Entry, notice, and posttrial timing

Fictional courtroom clerk Avery Thorn entered judgment on October 15, 2025 and transmitted electronic notice to Maya Holt and Jonas Bell for Blue Ember and Eli Mercer and Tara Webb for Granite Heron. The transmission records the entry date rather than the date any party later downloads a copy.

The parties were advised that a Rule 50(b) renewed motion and a Rule 59 motion must comply with their respective time requirements. A timely qualifying motion affects when the civil appeal period begins to run. This judgment does not predict whether such a motion will be filed or granted.

Judge Miriam D. Carver approved the form as accurately implementing the verdict. The judgment concerns only the synthetic dispute and fictional amounts stated here. No real court, party, facility, shipment, laboratory, or financial obligation is represented. The clerk's service certificate closes the entry without adding findings to the jury's answers.
